OBJECTIVE

Passionate web and mobile application developer with expertise in React.js, React Native, Vue.js, Tailwind CSS, and core CSS. Skilled in building responsive, user-friendly web interfaces and dynamic mobile applications. Adept at crafting clean, efficient code and delivering high-performance solutions across platforms. Committed to creating seamless user experiences through modern front-end and mobile development technologies.

EDUCATION

B.Tech – Computer Science and Engineering- 2022 – Keshav Memorial Engineering

SKILLS AND ABILITIES

- **Frontend Development**: React.js, Vue.js, React Native, Tailwind CSS, Bootstrap
- **Web Development**: HTML, CSS

EXPERIENCE

Conquerors Software Technologies 07/2023 - Present

- **Developed and maintained responsive web applications** using React.js, Vue.js, Tailwind CSS, and core CSS for seamless user experiences.
- **Created dynamic, user-friendly interfaces** by leveraging modern front-end technologies and best design practices.
- **Optimized website performance and loading speeds** through efficient coding practices and responsive design techniques.
- **Integrated RESTful APIs and third-party services** to enhance web application functionality and interactivity.
- **Ensured cross-browser compatibility and mobile responsiveness** for consistent user experiences across devices.
- **Utilized version control systems like Git** to manage codebases and collaborate effectively with development teams.
- **Performed regular testing and debugging** to ensure high-quality, scalable, and maintainable web applications.

PROJECTS

Web Developer | Hebron Matrimony (Matrimonial Platform)

- **Developed a dynamic landing page, user dashboard, and admin dashboard** using React.js and Tailwind CSS, ensuring a responsive and user-friendly interface.

- **Implemented intuitive UI components** with Tailwind CSS for a seamless user experience, focusing on accessibility and cross-device compatibility.
- **Built modular, reusable React components** to streamline development and improve maintainability across different sections of the platform.
- **Optimized the user dashboard** to manage profiles, search filters, and matchmaking features, enhancing user engagement and interaction.
- **Designed the admin dashboard** with advanced features for user management, content moderation, and analytics tracking.
- **Collaborated with the team in an Agile environment**, ensuring timely delivery of features and consistent updates using version control tools like Git.

Web Developer | CrewCraftPro (CRM Project)

- Built a responsive landing page, user and admin dashboards using Vue.js and Tailwind CSS for an intuitive, **mobile-friendly UI**.
- Developed modular UI components and implemented efficient state management for **seamless performance and navigation**.
- Designed dashboards with features like client data management, real-time updates, role **management, analytics, and data visualization**.
- Ensured **cross-browser compatibility** and responsive design, delivering a consistent user experience across devices.

Mobile Application Developer | Hebron (Matrimonial App)

- Developed and launched the Hebron matrimonial mobile application exclusively for **Android** using **React Native**, ensuring smooth performance and optimal user experience.
- Designed intuitive, user-friendly interfaces tailored for Android devices, focusing on seamless navigation and accessibility.
- Implemented key features such as user registration, profile management, advanced search filters, and matchmaking algorithms to enhance user engagement.
- Optimized application performance by writing clean, modular code and utilizing React Native's efficient rendering capabilities for Android.
- Ensured **responsive design** and smooth UI transitions across various Android screen sizes and resolutions for a consistent user experience.
- Collaborated with cross-functional teams to incorporate user feedback, refining features and improving overall app performance.
